product resources

Renewable, naturally antibacterial, and durable, cork peg is both soft to the touch and incredibly resilient, absorbing impact and bringing warmth to a space.

This simple yet versatile wall hook system uses a magnetic mounting system, allowing you to reposition it freely. Lending itself to interpretation, cork peg is designed to hold a coat, secure a bag, stand in as a toilet paper holder, or become an imaginative constellation for various functions.

cork peg is available in two lengths: a short peg which supports up to 3.2 kg (7 lbs), and a longer version which maintains strength at its anchor point, tapering toward the tip.

Design by Stephanie Forsythe and Todd MacAllen

An integrated magnet allows cork peg to connect seamlessly to any suitable ferrous surface. For non-magnetic surfaces, a discreet magnet cup provides a simple, secure mounting solution.

short cork peg is ideal for holding heavier garments and bags, keeping objects closer to the magnet and surface for enhanced stability and support.
