soft collection

<table>
<tr><td colspan="2">softwall + softblock modular system</td><td>softwall + softblock is a modular system of freestanding, flexible partition walls and building blocks. The elements are available in a variety of materials and colours to offer a range of properties including translucency or opacity, acoustic absorption, fire rating, UV and water resistance. The paper and textile materials are recyclable. Blue and brown paper products are made from wood harvested from FSC® Certified (FSC® C158591) responsible sources. softwall + softblock is flexible in length, opening to a maximum of 4.5 meters long (15 feet) when fully expanded. When softwall + softblock are compressed for storage, they measure less than 5 centimeters thick (2 inches). Elements may open less than the full length to create shorter partitions, or form longer walls by connecting two or more softwalls via their magnetic end panels. An optional wall hook is available for simple, compact storage.</td></tr>

softwall + softblock LED ribbon for white textile

Flexible LED ribbons integrate with textile softwall + softblock to transform the elements into expressive, luminous space partitions. Light emphasizes the subtle beauty of the translucent material, illuminating the delicate fibres. LEDs are available in warmer white (2700K), warm white (3000K) or neutral white (4000K). Please inquire about the recommended arrangement for your project.

## softwall + softblock accessories

softwall + softblock are freestanding, however, molo provides optional accessories that offer additional functionality. Please contact the studio to discuss which accessories may suit your project.

anchor strip
anchor magnetic end panel of softwall to any solid surface

felt handle
may attach to softwall that are opened and closed frequently

anchor strip
align ends of softblock directly over one another
peg + strip
reinforce the connection between horizontal layers of softblock

tubes
transform softblock into a rigid beam to span windows or door openings. Tubes can aslo hold softwall + softblock in straight lengths.

wood
softwall + softblock

wood softwall + softblock are made from FSC® Certified (FSC® C158591) sustainably sourced, engineered wood. Each piece is flexible in length opening to a maximum of 4.5 meters long (15 feet) when fully expanded, and their modular, magnetic end panels allow them to link in sequence to shape long stretches of wall or immersive environments and displays. Light transmits through the partitions as a delightful, warm glow and reveals playful, enigmatic forms as people or objects cast shadows against them. As natural light changes throughout the day, a range of colours is revealed in the walls, shifting through pale ash, soft cream, and rich yellows.

suspended softwall + softblock luminaires

Lift white textile softwall + softblock into the air with new LED armatures designed to transform the partitions into suspended luminaires, seemingly weightless structures that hold straight lines or perfect 90-degree turns. suspended softwall + softblock luminaires are available in modules of 2.4 meters (8 feet). Connect them modularly and at different heights throughout a high-ceilinged space to form a hanging, luminous sculpture garden.

molo

soft collection

softseating	softseating is a line of flexible furniture made from paper or textile. Each element uses honeycomb geometry to fan open into a stool, bench, table or lounger, compressing for storage. Magnetic end panels allow two or more elements to connect, forming long winding benches. Blue and brown paper products are made from wood harvested from FSC® Certified (FSC® C158591) responsible sources.

cantilever table bases

cantilever table uses a flexible paper or textile base and is available in two heights. A single base uses honeycomb geometry to fan open and support a round top. Blue and brown paper bases are made from wood harvested from FSC® Certified (FSC® C158591) responsible sources. cantilever table can be purchased either with a centre hole to accommodate molo's pencil holder and sketching circles, or as a solid surface top. The felt pad is an alterative option to the hard round top.

The components of cantilever table are available for individual purchase. molo offers these pieces as an opportunity to continue the design process, encouraging clients to pair the bases with tabletops of their own design, or from a unique material palette. To discuss your idea, please contact the studio.

benchwall + thinwall

benchwall is a flexible, paper or textile bench with a tall backrest that acts as both acoustic space partition and seating. benchwall can stretch into straight, high backed seating or sweep into a circular bench-lined room for intimate meetings. benchwall may magnetically connect to the 45.5 x 91.5 centimeter diameter (18 x 36 inch diameter) size softseating stool + bench to form modular seating arrangements. Blue and brown paper products are made from wood harvested from FSC® Certified (FSC® C158591) responsible sources.

thinwall was designed as an acoustic, sculptural liner for solid walls, columns and ceilings or as a flexible wrap for storage areas, reception desks and other millwork. It measures only 9 centimeters wide (3.5 inches) and reaches 183 centimeters high (6 feet). Adjustable in length, it stretches up to 3.5 meters long.

soft collection

cloud softlight pendant	cloud softight pendants are individual luminaries that radiate a gentle, ambient light. The honeycomb shades are lit from within by dimmable 90+ CRI LED, in warm white or neutral white colour temperatures. cloud pendant is available in four sizes, and can be hung independently or combined with other pendants and mobiles to create vast sculptural skyscapes. cloud softlight pendant scales to any size interior, from small apartments to multi-storey auditoriums..

cloud softlight mobile	cloud softlight mobile creates a canopy of soft, luminous forms. Inspired by the kinetic sculptures of Alexander Calder, each mobile supports three cloud pendants that move and shift with the air currents. The honeycomb shades are lit from within by dimmable 90+ CRI LED, in warmer white (2700K), warm white (3000K) or neutral white (4000K) colour temperatures, and transmit a gentle glow in all directions.

cloud mast

cloud mast is a kinetic luminary that balances elements of earth and air. The mast is crowned by a boom that supports a luminous canopy of clouds and a dangling fishing weight. The boom revolves around the mast, carrying graceful light throughout a space. As a floor supported lamp, cloud mast is ideal for temporary installations or interiors where wiring might disrupt the ceiling.

urchin softlight	With its elastic movement and shifting form, urchin softlight invites playful interaction. By gently manipulating the shade with your hands, the lamp transforms through a range of beautiful shapes. The honeycomb shade is made from a tear- and water-resistant, non-woven polyethylene textile that is anti-static to repel dust. The integrated LED light source is available in warm white (2700K) or neutral white (4000K) colour temperatures with 90+ CRI for natural colour rendition.

cappello

cappello	cappello is a modest tribute to Achille Castiglioni, his brother Pier Giacomo, and Ingo Maurer—designers who have gifted the studio (and the world) much joy and inspiration. The Carrara marble base is a byproduct of the manufacturing process for Arco, the iconic floor lamp designed by the Castiglioni brothers in 1962. Cappello is lit by LED and shaded with a paper cap, or "cappello" in Italian. A simple magnetic connection allows the cap to slide to any position along the steel wire that springs from the marble base. This allows the cap to tilt, adjusting direction of light and giving the little lamp a gestural, anthropomorphic quality.

molo

glassware

| float | float is a line of hand blown, thermally-resistant glassware designed to emphasize the colours and charms of the tea, scotch or juice served within. The suspended bowl insulates liquid from hands, and forms a lens of liquid colour that projects light onto the tabletop. The tea lantern has an insulating double wall, allowing for a simple, cylindrical form that can be held like a wine bottle. With a candle lit below the tea lantern, the ambient light, together with the colour, fragrance and steam of the tea, transcends the pragmatic to create an engaging spatial experience.

float is exclusively available at molodesign.com

molo

International pricing and terms

pricing

For purchases shipped outside of the United States, Europe, and Canada, molo maintains an international price list in US dollars (USD). Transport costs will be quoted separately on your invoice. The purchaser is responsible for any duties or taxes — these will be collected directly by the import broker or freight carrier.

payment and shipping

Payment must be received in full before any goods are shipped. We accept payment in USD by bank wire, credit card (Visa, MasterCard, AMEX), or PayPal. We do not accept cheques. For credit card or PayPal payments over $5,000, a 3% processing fee will be charged. Standard delivery is by FedEx International Priority or freight forwarder.

exchange policy and warranty

ALL SALES ARE FINAL. When packaged molo products are highly compact and rarely damaged in shipping. In the unlikely event of damage, ask the delivery person to sign off on any visible damage to the packaging before leaving and photograph the damaged packaging before opening. The shipping company can only be held accountable for damages noted by the driver at the time of delivery.

Damaged or defective goods can be exchanged provided we are notified by email with photos of the damage within two business days of your receipt of goods. If any damage occurs during installation, contact molo immediately and do not attempt to fix the product, as doing so may limit our ability to assist. This policy does not include goods that are not defective but rather exhibit minor variations typical of handmade products.

While we do not offer an official warranty, we stand behind our products and are available to assist with any issues if they occur.

ordering information

E-mail orders to sales@molodesign.com, or call +1 604 685 0340.

For most orders, goods are normally in stock and ready to ship. For larger orders, projects with fixed deadlines, or orders with custom colour softwall + softblock, please allow for up to 25 weeks lead time. Please ask an account manager about availability based on your timeline and project.

patents and intellectual property

molo products are designed by Stephanie Forsythe and Todd MacAllen, manufactured by Molo Design, Ltd. and protected by patents and/or design registrations viewable at molodesign.com/ip.

Prices and policies are subject to change without notice.
