soft collection

softwall + softblock modular system

softwall + softblock is a modular system of freestanding, flexible partition walls and building blocks. The elements are available in a variety of materials and colours, to offer a range of properties including translucency or opacity, acoustic absorption, fire rating, UV and water resistance. The paper and textile materials contain recycled content and are recyclable. All softwall + softblock elements are flexible in length, opening to a maximum of 4.5m long (15') when fully expanded. When softwall + softblock are compressed for storage, they measure less than 50mm thick (2"). Elements may open less than the full length to create shorter partitions, or form longer walls by connecting two or more softwalls via their magnetic end panels. Each 1830mm (6') and 2440mm (8') softwall comes with a wall hook for simple, compact storage.

LED ribbon kits for white textile softwall + softblock

Flexible LED ribbons integrate with textile softwall + softblock to transform the elements into expressive, luminous space partitions. Light emphasizes the subtle beauty of the translucent material, illuminating the delicate fibres. LEDs are available in warm white or neutral white. Please inquire about the recommended arrangement for your project.

benchwall + thinwall

benchwall is a flexible, paper or textile bench with a tall backrest that acts as both acoustic space partition and seating. benchwall can stretch into straight, high backed seating or sweep into a circular bench-lined room for intimate meetings. benchwall may magnetically connect to the 455 x 915mm ø (18 x 36" ø) size softseating stool + bench to form modular seating arrangements.

thinwall was designed as an acoustic, sculptural liner for solid walls, columns and ceilings or as a flexible wrap for storage areas, reception desks and other millwork. It measures only 90mm wide (3.5") and reaches 1.83m high (6'). Adjustable in length, it stretches up to 3m long (10').

softseating

softseating is a line of flexible furniture made from paper or textile. Each element uses honeycomb geometry to fan open into a stool, bench, table or lounger, compressing for storage. Magnetic end panels allow two or more elements to connect, forming long winding benches.

cantilever table + hard top

cantilever table uses a flexible paper or textile base and is available in three heights. A single base uses honeycomb geometry to fan open and support a round top. The sketching circles accessory accompanies the round top, providing a collaborative work environment that allows for ideas to grow as they spin around the table. Multiple honeycomb bases may be magnetically connected and paired with modular tops to create a variety of table shapes or lengths.

cloud softlight pendant	The pendants are individual luminaries that radiate a gentle, ambient light. The honeycomb shades are lit from within by dimmable +90 CRI LED, in warm white or neutral white colour temperatures. Pendants are available in four sizes, and can be hung independently or combined with other pendants and mobiles to create beautiful, vast cloudscapes. cloud softlight pendant scales to any size interior, from small apartments to multi-storey auditoriums.

cloud softlight mobile

cloud softlight mobile creates a canopy of soft, luminous forms. Inspired by the kinetic sculptures of Alexander Calder, each mobile supports three cloud pendants that move and shift with the air currents. The honeycomb shades are lit from within by dimmable +90 CRI LED, in warm white or neutral white colour temperatures, and transmit a gentle glow in all directions.

cloud softlight mast

cloud mast is a kinetic luminary that balances elements of earth and air. The mast is crowned by a boom that supports a luminous canopy of clouds and a dangling fishing weight. The boom revolves around the mast, carrying graceful light throughout a space. As a floor supported lamp, cloud mast is ideal for temporary installations or interiors where wiring might disrupt the ceiling.

cappello

cappello is a modest tribute to Achille Castiglioni, his brother Pier Giacomo, and Ingo Maurer—designers who have gifted the studio (and the world) much joy and inspiration. The Carrara marble base is a byproduct of the manufacturing process for Arco, the iconic floor lamp designed by the Castiglioni brothers in 1962. Cappello is lit by LED and shaded with a paper cap, or "cappello" in Italian. A simple magnetic connection allows the cap to slide to any position along the steel wire that springs from the marble base. This allows the cap to tilt, adjusting direction of light and giving the little lamp a gestural, anthropomorphic quality.

float

float is a line of hand blown, thermally-resistant glassware designed to emphasize the colours and charms of the tea, scotch or juice served within. The suspended bowl insulates liquid from hands, and forms a lens of liquid colour that projects light onto the tabletop. The tea lantern has an insulating double wall, allowing for a simple, cylindrical form that can be held like a wine bottle. With a candle lit below the tea lantern, the ambient light, together with the colour, fragrance and steam of the tea, transcends the pragmatic to create an engaging spatial experience.

float is exclusively available at molodesign.com

Euro (€) Pricing and Terms

Pricing

All pricing is shown in euro. Shipping charges are additional. Purchaser is responsible for all import duties + VAT where applicable.

Payment and Shipping

We accept payment by bank wire, credit card (Visa, Mastercard, AMEX) or PayPal. Invoices over € 10,000 must be paid by bank wire only.

Payment must be received in full before any goods will be shipped. Shipping charges are additional. Standard delivery is by FedEx International Priority or freight forwarder.

Prices and policies are subject to change without notice.

Exchange Policy

All sales are final.

Goods which are damaged or defective at the time of receipt can be exchanged for same goods, provided we are notified by e-mail, fax, or phone within two business days of receipt of the goods.

This policy does not include goods which are not defective, but rather exhibit minor variations typical of handmade products.

Ordering Information

E-mail orders to sales@molodesign.com, or fax +1 604 685 0342

For small orders, goods are normally in stock and ready to ship. For larger orders, projects with fixed deadlines, or orders with custom colour softwall + softblock, please allow for up to 14 weeks lead time.
