urchin softlight specifications

small urchin softlight

colour of LED	lumens	product code
warm white LED · 2700K	270	URC-T-WH-SM-WW
neutral white LED · 4000K	300	URC-T-WH-SM-NW

- 3.3 W power draw
- international 110 - 240 V
- A, C, G and I plug types available
- comes with in-line dimmer
- comes with 3 meters (10') of co-axial electrical wire

· The flexible honeycomb structure of the urchin shade will transform through a multitude of shapes, opening like a flower as you rotate it through and around its own centre with your hands. By undoing the magnetic end panel and turning the shade inside-out, you will create straight walled cylinders and conical forms. The 'front views' and 'sections' shown to the left are examples of some of the possible forms urchin softlight can change into.

elevation variants (positions in between these also possible)
