FR treated textile  
softwall + softblock specifications

# FR textile 290mm (11.5") wide softwall + softblock modular system

- colours + materials
- FR white textile (translucent)

The honeycomb geometry of softwall + softblock expands to create a freestanding structure that is over one hundred times longer than its compressed form. Standard softwall + softblock elements expand to a maximum of 4.5 meters, or can be opened partially to achieve shorter lengths. Custom lengths and heights are also available and all elements compress for storage.

- optional accessories
- LED kit
  - steel strips to connect softwall + softblock to walls or vertical structure
  - felt handles
  - steel base
  - clipping system to mount signage + printed materials
  - peg and strip

- fire rating certificates available
- M1 · France
  - B1 · Germany
  - NFPA 701 · United States

acoustic certificates available
