benchwall

Made from paper or textile, benchwall is a flexible bench with a tall backrest that functions as an acoustic space partition as well as seating. Adaptable in length and placement, benchwall can stretch into straight, high-backed benches or sweep into a circular bench lined room for intimate meetings.

The brown and blue paper furniture is made from wood harvested from made from wood harvested from FSC® Certified responsible sources and coated with a non-toxic fire retardant. The textile is a durable, nonwoven polyethylene that is water- and tear-resistant. Both materials are 100% recyclable.

Design by Stephanie Forsythe + Todd MacAllen

* benchwall is flexible in length. When fully expanded, maximum length for paper benchwall is 3.5 meters (11.5 feet). White and aluminum textile expand to 5 meters (16 feet).

12 - 18 weeks lead time for custom height

benchwalls connect to one another by magnetic end panels, or to softseating benches to create unique meeting rooms or amphitheater-style seating.

made from natural lamb's wool, the 15" (380mm) diameter felt pad is a perfect cushion for benchwall.
